

## PAYTYM WEBSITE CONTENTS and AMENDMENTS (191222)

### **About PAYTYM**

Paytym is a cloud-based web and mobile application platform for employers and employees. It greatly reduces manual work and errors and saves time and resources, both for employers and employees, in managing time & attendance and the entire payroll process. Paytym also provides in-app chat and push notifications and automates the statutory filing requirements.

Employers can simply Sign Up and commence on-boarding employees.

Start streamlining your Payroll processes and simplifying your HR management now!

### **For Employers**

As an employee, our Paytym app lets you check-in and check-out directly from the mobile app, have access to your pay slips, salary and time worked. You can chat with the employer; view your shift roster, scheduled meetings and employment benefits. You can also update your personal and banking information, choose multiple payment accounts, request leaves and time off, view attendance and work history and receive documents and notifications.

### Awesome Features

An HR management software system will be of high use when various powerful features will be integrated into it. Paytym develops a wide range of next-gen features for HR management software systems. We craft future-proof solutions in terms of HR management software development.

#### Cloud-Based Facilities

We don't prefer to develop solutions that are limited to certain devices and browsers. We develop cloud-based SaaS solutions so that a user can easily access the platform using any PC / laptop / tablet / smartphone and browser.

#### Leave Management

We craft excellent leave management features so that HRs can easily ensure attendance of maximum employees, conduct error-free payroll, and keep the entire workforce enough productive.

#### Attendance Management

No matter you are running your organization traditionally, remotely or in a hybrid way, attendance management can be easy for you.

#### Payroll Management

Manual payroll management requires a lot of time and a single error can ruin the entire process. In order to be error-free and to manage payroll within minutes,

#### Time Tracking

Time tracking and employee activity tracking are very much needed today. Be it a remote workforce or a hybrid one, employers should check what employees are doing in their duty hours.

#### Analytics and Report

We prefer to integrate analytics and report generation facilities into HR management software systems. Our HR management software development services concentrate on including...

### Employer Web Features:

- Employee Management
- Automatic Calculations of Pay, Taxes and Deductions
- Direct Deposits to Employee Multiple Payment Accounts
- Online timesheets
- Payroll Tax and Contribution Filing
- Customizable Reports
- Create Chat Groups

### About Our App

Do you want to have your own HR management software system? If YES, you have landed at the best place. Paytym offer extensive HR management software development services for startups and enterprises irrespective of the industry type.

### User Friendly Interfaces
